

# Community Newsletter

March has seen started and they are progressing on schedule. They may even finish the pipe repair ahead of schedule. Right now, they have about one month left on the schedule.

Please pay attention to the posts on your door as your stack is up for work. We have to be very careful to not cause any problems with water while they are working. Your attention is greatly appreciated. These repairs are going to last for many years to come. The repair men are very happy with the way the lining has been as well.

Thank you first floor residents as you have dealt with so much during this project and the repair process. .

## PARKING ASSIGNMENTS

The new parking assignments are out and effective. If you have not moved to your new spot please do so by Monday, 3/13/2023.

Thank you for making the change and remember, parking is an annual assignment.

## SEA WALL PROJECT

The next major project for Island Point is the sea wall repair.

The repair will affect the boat slip owners. Please keep your eyes out for notices as this project gets closer. The notices will keep you informed of what to expect and any action you must take during this much needed repair. The new wall will last us many years once completed.

## ELEVATOR PROJECT

The elevator project is getting close to the start date.

At this time, parts are on order and before you know they will be here working as the planned start time is May.

## CALENDAR OF EVENTS
